

Please endorse the No Call list. My life is vastly improved now that I no longer have to contend with unwanted calls from unsolicited vendors. Almost as annoying as the actual calls were the "hang-up" calls where several phone numbers are dialed simultaneously and the first one to get picked up is the one connected. We received MANY of these hang-ups and thought that we were receiving harrassing phone calls. My husband also thought I was receiving calls from an "admirer" who promptly hung up when my husband answered the phone. It's a relief to not have to defend myself everytime a solicitor calls and hangs up. Thank you for supporting this bill.
